A5 PRP Jun 28.docx

Thnx Lorne. What I did was take the BW research list you provided and the list I received from Chris (shortened it to just title and URL) and directly incorporated into your PRP chapter under the Domestic Actions, BW section. This may be the simplest solution if everyone is in agreement. Just to let you know the editing pen on your chapter was initially with ECCC and we made some minor and grammatical edits to your chapter, plus added some intro language about importance of the issue. We'll send this to EPA soon along with other chapters of the Progress Report of the Parties we were editing.

Chris, I recall your out of office saying your only back July 5th, so hopefully shortly after that you can Lorne can take a look at this newer Annex 5 chapter and see what you think. The other issue I need to check in with you on when your back is TC approvals - I'll call you when you're back.

There is one question for both of you under Oil & HPS - see the comment box in the attached (I'm not sure if what I'm asking is available info so if it isn't we can simply delete the comment box).

Ash

Ash

Here is a list of US sponsored R&D that can make the posting more bi-national.

Rich,

Here is the proposed list I pulled from DTIC
